(UNDERGROUND: LONDON VICTORIA)**

YRCE: THE HISTORY OF LONDON'S RAILWAY TUNNELS

SPEAKER – DR KEITH BOWERS

**HEAD OF TUNNEL ENGINEERING,
LONDON UNDERGROUND, TRANSPORT FOR LONDON**

As the oldest metro system in the world, the London Underground is a pioneer system of engineering and design and has been part of the capital's transport infrastructure for more than 150 years, keeping London working and growing, and making life in the city better.

In what promises to be an interesting and engaging presentation, Keith Bowers will describe the chronological history of London's railway tunnel network starting from the construction of Brunel's Thames Tunnel and progressing towards the present day. It will include illustrations of the network's development, and the tunnelling technologies that were developed and applied at different times and will consider the long-term development of a sustainable underground railway fit for our future.

Event Registration

If you would like to attend please use the following link to reserve your place:

<https://www.ice.org.uk/events/the-history-of-londons-railway-tunnels>

Please inform Greg James (greg.james@ice.org.uk) if you are an RCEA member and would like an attendance certificate (RCEA members only).

Attendance Certificates for RCEA members to support CPD logs

Please fill out the form at the event if you would like a CPD certificate

This event must be **pre-booked** via the above link a minimum of 2 working days before the meeting.

Each individual must determine if the meeting meets their professional body's CPD requirement.

There is no charge for this meeting and all are welcomed.

Tea and Coffee will be served from mid-way through the presentations
